C 500: the big double-chamber machine from Multivac

The bigger double-chamber machine from Multivac: load one chamber while packaging just about any product on the other one. Automatically package fresh meat, processed meat, cheese, ready meals, technical and medical articles - anything that fits in a film pouch and the chamber.

Outstanding: the stainless steel structure

High-quality materials guarantee that the double-chamber machines from Multivac have a long useful life with minimum maintenance. The stainless steel lid has rugged supports. With its spring-loaded swing mechanism, the lid is very easy to move and is suctioned into position when it is closed with no exertion by the operator.

Technical Data

Length:	1 600 mm
Width:	1 050 mm
Height:	815 mm
Height with the lid open:	1 255 mm
Chamber depth:	750 mm
Chamber height:	200 or 250 mm
Sealing lengths:	2 x 650 mm per chamber
Integrated vacuum pump:	150, 160, 180, 250 or 300 m ³ /h
Electrical connection:	3 x 400 V 50 Hz, 3 x 220 V 60 Hz
Weight:	About 650 kg (with 300 m ³ /h pump)
Packaging speed:	About 2 - 3 cycles/minute
