

Vericut

The Rotoflex Vericut is the premier off-line digital and conventional web finishing solution. The newest design integrates fully servo-driven print and die cut units with the most advanced motion control technology. The intelligent Vericut system delivers unparalleled accuracy and precision for many off-line applications and processes.

Unique Benefits

- Extremely versatile with multi-function process platform
- Fast and accurate set-up and change overs
- Precision print and die cut – extremely accurate servo programming
- Optimized for the operator – large, convenient user-friendly interface
- Flexible performance – ideal for any size digital or conventional pre-printed label

Vericut Features

High-performance automation

- Direct servo-driven print and die cut for precision registration – continuous and semi-rotary
- UV and IR flexo coating and printing
- Completely integrated motion control and PLC functions
- Direct access, easy to change plate roll and magnetic dies
- Fully automated set-up to each new job – minimizes waste

eDrive

- High-performance web handling system
- Extreme web motion control delivers roll quality
- Electronically synchronized integrated drive system provides seamless tension management
- Optimal acceleration & deceleration without compromising roll quality

Specifications

Vericut

Web widths	13.25 inch / 337mm
Max unwind diameter	28 inch / 711mm
Max single spindle rewind diameter	24 inch / 610mm
Max dual spindle rewind diameter	20 inch / 510mm
Die cut repeat range	2 – 19 inch / 51 – 483mm
Print repeat range	2 – 19 inch / 51 – 483mm
Max speed – semi-rotary	220 fpm / 67mpm
Max speed – continuous	300 fpm / 91mpm
Motor	AC vector
Voltage	Country Specific

Options

- Roll lift
- Slitters – crush knife, shear knife, razor and cartridge style
- Underscore slitting with lateral adjustment
- Sheeter
- Stacker/Conveyor
- Automatic unwind tension control
- Corona treater
- Drying – UV or IR
- Cold Foil
- Hot Foil
- Embossing
- Wet lamination
- Ultrasonic web guide sensor
- 40 inch / 1016mm unwind
- Ironing roller
- Auto web gripper/feeder
- Clear label count sensor
- Lamination rewind
- Dual rewinds
- Strobe lights
- Trim removal
- Integration with complete range of inspection systems to meet any application need
