Highlights/Features

The popular Char-Lynn 2000 Series Disc Valve Hydraulic Motors provide torque up to 7500 lb Inch. This proven design is reliable and durable. Eaton has added options that make the motor more flexible to use in a wide variety of applications. The integral cross-over relief valve is the latest innovation in the 2000 series motors.

- Three zone design for longer life and true bi-directionality
- Bearings that meet the highest standards of the industry
- Options to optimize performance in every application
- Integrated cross-over relief valve option
- Directional Boring any place pressure relief protection is optimal for system or motor performance and life applications

Product Specifications

Brand Name	Eaton Char-Lynn
MFR Part Number	104-1002-006
UNSPSC	26101304
Item	Hydraulic Motor
Type	LSHT Geroler
Displacement	6.2 cu-Inch-rev
Pressure Rating	3000 psi
Speed	742 Rpm
Output Torque	2630 Inch-lb
Flow Rate	20 gpm
Port Type	Side
Port Size	No 10-SAE
Mounting Type	2-Bolt, SAE-A
Oil Viscosity	100 - 200 SUS
Oil Temperature	180 deg F
Shaft Size	1 Inch Dia
Shaft Type	Keyed
Application	For Brush Cutters and Mowers
