

# Spiral Water™

Technologies, Inc.

## A Quantum Leap in Filtration

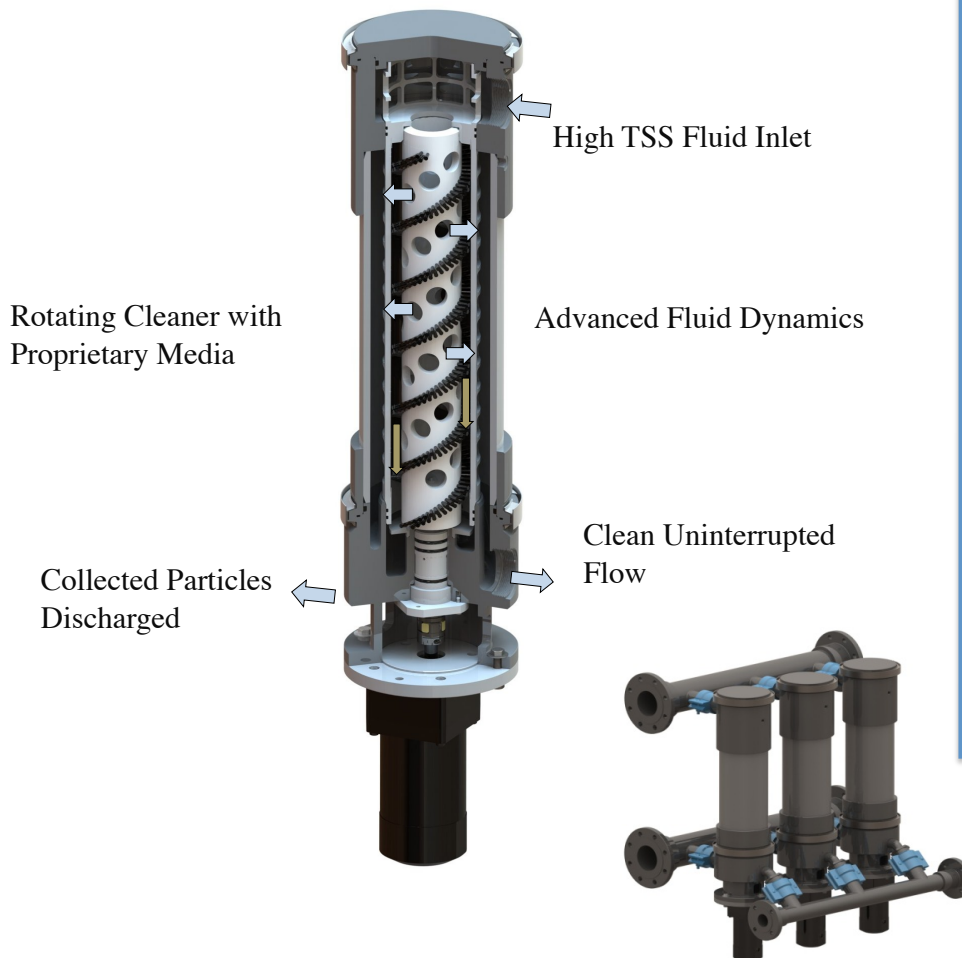

The **Spiral Water Automatic Filter** is a low maintenance, self-cleaning water filter for 10 to 100 micron absolute filtration. Individual filter units available in capacities ranging from 10 to 650 GPM. The patent pending technology is developed for Advanced Suspended Solids Removal for Industrial, Municipal and Agricultural applications.

## Industry Applications

- Oil and Gas Produced Water
- Desalination
- Marine & Ballast Water
- Drinking Water
- Wastewater & Reuse
- Mining
- Cooling Towers
- Food & Beverage
- Pretreatment for MF / UF / RO

## Key Features

- Continuously cleaned Filter Membrane
- High TSS filtration – up to 10,000 mg/l
- No Backwash, No Cross flow
- 99.99% water recovery.
- Low Power (solar or line power)
- Small Footprint
- Corrosion Resistant
- Low Cost / Easy Maintenance
- Light Weight, Modular and Scalable
