

Sigpack HBL / HSL

Pillow pack wrapping machine for hermetically tight packages

Overview

Perfect airtight packages for unbeatable product protection

For hygroscopic products, pharmaceutical blisters, meat and cheese, wrapped individually or in groups. The reciprocating cross-sealing jaws ensure long sealing times resulting in perfect airtight seams.

Packaging

Airtight, taught or loose fitting pillow packs, if desired with gas flushing. Options include «tear-here» strips, cardboard inserts, coupons, etc.
