

LABELIT

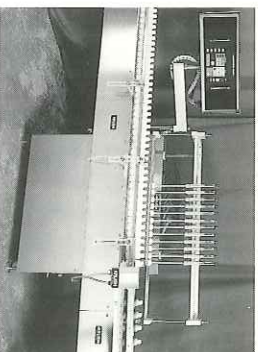

Pharmaceutical labeller for wrap, face and three panel labels. Simple attachments to handle unusual bottle shapes. Label coding, verification and bar code systems for integrated lines. Rugged, simple sanitary GMP design.

KALISH COMPLETE LINES

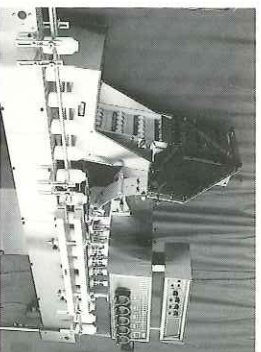

Order complete packaging lines from one source. Kalish offers the best possible purchase decision. Lines are integrated, fully tested and ready for installation in your plant.

KALISHTRONIC

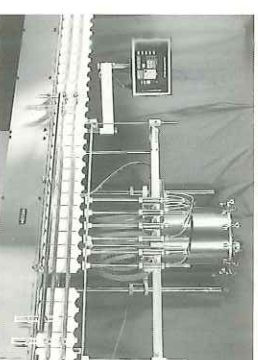

Electronically controlled volumetric liquid filler. Accurate within 0.5%. Instant product recall for quick changeovers from 5ml to 20 litres without change parts. Diving nozzles. No drip. Handles liquids, lotions, gels, creams.

SUPERCAP

High-speed in-line flow-through capper. Up to 200 bottles/minute. No change parts. A variety of cap feeders to suit a wide range of bottles and caps. Smooth, efficient operation.

ECONOTRONIC

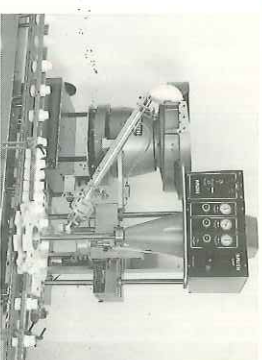

Maximum value 316 stainless steel liquid filler. Electronic controls, instant memory recall. Fills 100ml to 50 litres without change parts. Time/gravity or time/pressure systems available. A value leader.

KOTNR 120

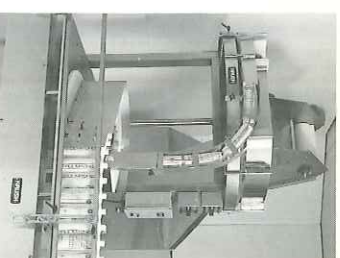

Cottoner features simple, compact design. Fully automated inverted "U" insertion. Up to 120 BPM. Multi-shot attachment. Rollers separate cotton into adjustable lengths. No knives, no sharpening.

MK V CAPPER

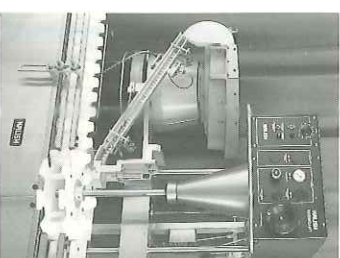

Patented "push-through" cap placement eliminates cross-threading and complex set-ups. Soft, and even the most uncommon bottle shapes, handled with ease. Quick-change starwheels and cap chucks.

KALISORT 200

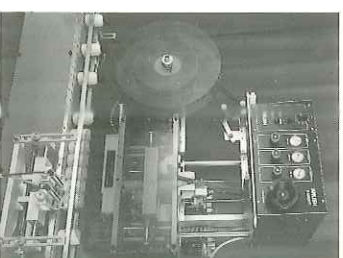

The "5-minute-changover bottle unscrambler" Smooth, efficient operation with optimum container control. Quick-change orientation starwheels ensure speeds to 200 BPM. Integrate with any line.

DESICCANT INSERTER

For cartridge or cylinder-type desiccants. Speeds to 100 BPM. Single or multiple desiccants per container. Starwheel design. Changeovers completed in minutes.

BANDIT

Tamper-evident neck or body bands with one unique, versatile machine. Tear tabs, print registration and shrink tunnels for any application. Quick changeovers. Simple, low-maintenance design. Hundreds installed, world wide.

KALISH SWIFTPACK*

New high-speed tablet counter eliminates change parts

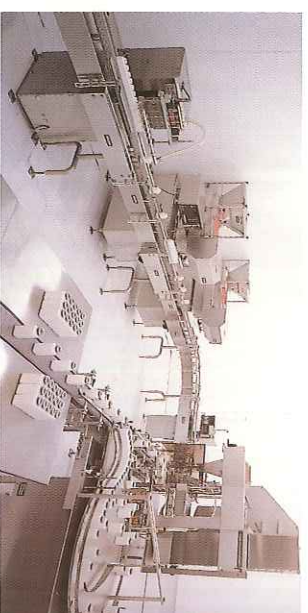

The Swiftpack counter is the proven, high-technology solution for counting tablets, capsules, caplets and gelatins. Swiftpack machines are the key component for Kalish's unique (patent pending) "JIT" monoblock tablet counting systems. Ideal for short runs.

- Strip-down time for cleaning in 5 minutes
- Count: 1 - 65,000
- Speed: to 120 bottles per minute in twin head configuration.

Designed and manufactured to meet pharmaceutical packaging requirements, the Swiftpack counter increases operating flexibility by significantly reducing down-time for cleaning and changeovers. Simple lift-off hoppers, clip-on tablet trays and quick-release fasteners eliminate the need for tools.

The Swiftpack counter includes all the standard features you expect, including 316 stainless steel/GMP construction, centralized dust and chip extraction, electronic count and control systems guarantee accuracy, product recall memories, built-in fault display and data security protocol.

Kalish is a single source for complete packaging lines.
