## MID-SPEED ERECTOR Up to 22 cartons per minute

The 310E is the workhorse of the Wepackit erector line. It is designed to work in demanding environments all day, every day. Change-overs are regularly done in 1-3 minutes through three handwheels, with a very forgiving set-up. Maintenance requirements are minimal, and spare parts are all off-the-shelf components available from your local supplier.

- Changeovers in minutes
- **120" x 48"** Footprint
- Ergonomic magazine positioned inside the frame. Shuttle design for consistent blank case escapement.
- Magazine capacity for approx. 80-100 "C" Flute cases (29 ECT min, 175#)
- Positive vacuum 2-side case erection
- Top & bottom mechanical forming
- Omron programmable controller
- Case erection jam detection and automated shut-down
- Rugged construction - 2 1/2" square tube welded frame
- Mild steel construction, anti-corrosion paint
- 2" tape head
- Castors for portability
- Full interlocked guarding with clear polycarbonate
- Solid state sensing devices
- One operator / maintenance manual

### Standard Utilities

- 220V/3/60
- 7 CFM @ 80 PSI

### Standard Components

- UL/CSA Approved components

### Erector Options

- Full stainless steel construction
- Electrical (480/3/60)
- Left or right hand operation
- Jam detection & low-level alarms
- Hot melt for bottom gluing (310E HM)
- Short pitch model for higher speed
