PACKING SYSTEMS

Features

- concept: 2 stations side-loader
- servo-pneumatic infeed system
- servo-pneumatic multi-function unit
- max. 14 cases / min.
- stacker length 650 or 1000 mm
- case sealing station tape or hot-melt
- compact, clear gantry-style design

PACKING SYSTEMS

Machine dimensions		
Length	3200 mm – with hotmelt 3500 mm – with taper	without conveyor
Width	1940 mm	
Height	2100 mm	without lamp
Carton closing	Tape or hot melt	
Weight approx.	2000 kg	
Noise level	70 dB	
Colour	RAL 7040	stainless
Infeed height approx.	700 - 800 + 50 mm	
Outflow height approx.	900 + 50 mm	
Function	sideloader/servo-driven and pneumatic	
Format range (with stacker 650)		
Carton height min./max.	120/400 mm	
Carton length min./max.	150/600 mm	
Carton width min./max.	100/400 mm	
Packaging material		
Carton	American Case	
Pneumatic system		
Operating pressure	6 ± bar	
Air consumption approx.	800 l/min	
Components	FESTO	
Electrical data		
Operating voltage/frequency	400/ 50-60 V/Hz	
Connected wattage	8 - 12 kVA	
Control voltage	24 V	
Electrical components		
Sensors	Sick, Wenglor	
Control cabinet components	Moeller	
Control system	Siemens S7, Allen Bradley 505/Control logix / Compact logix	
Display	Siemens TP 170 / Allen Bradley PV600 Allen Bradley PV1000	
Wattage		
Format change min.	15 – 25 min	depending on product
Outflow output max.	14 cases/min	depending on product
