3115 Wipe-On

Primary Applicator

The Label-Aire® Model 3115 makes labeling easier and faster…making you more profitable.

The Model 3115 Wipe-On labeler delivers on its promise of speed, accuracy, and ease of use. And that translates into lower operating costs and increased productivity for your business.

Advanced features include Automatic Speed Following (ASF) which allows product surface profiling, ensuring wrinkle-free labeling on even the most difficult product shapes and label materials (optional encoder required). Standard speeds of up to 1,500 inches (38.1 m) of web per minute and Zero Downtime Labeling allow your production to continue without costly interruptions. Product/label queuing and missing label compensation virtually eliminate unlabeled products.

Put this wipe-on pressure-sensitive technology to work for you all day, every day. The Model 3115 Wipe-On labeler is built to meticulous quality standards and designed to withstand the most demanding operation.
