HVS Bagging machine

Horizontal intermittent operation

Versatile and economical pouch packing

...for powders, granules, liquids or pastes!

The HVS horizontal packaging machines offers a variety of pack styles. From 3-side sealed sachets up to Doy-pack stand-up bags with re-close zip, nearly all types of portion packages are possible.

Convincing Arguments:

- A safe investment - universal and flexible operation
- modular design suitable for differing products, materials and bag shapes
- up to 3 filling stations for high speeds
- high production flexibility by virtue of rapid change over times
- very short drop heights for fragile products

Type	HVS 100/140	HVS 160 U
Bag width simplex (min - max)	45 - 100 mm	80 - 160 mm
Bag width duplex (min - max)	40 - 70 mm	60 - 80 mm
Bag length (min - max)	40 - 120 mm	80 - 220 mm
Filling volume (max)	62 cm ³	700 cm ³
Performance (max)	100/200 cycles/min	100 cycles/min
