KX603

KALIX has been manufacturing machines since 1928 and has installed more than 10,000 machines all over the world.

A worthy addition to the Kalix line, the KX603 is a cost-effective answer to production needs.

Scalability: KX603 production capacity can be increased from 60 tubes/min to 80 tubes/min with modular equipment installation.

Format part compatibility between Série 3 range machines upgraded from previous generation range.

Sturdy and reliable: 100% mechanical drive system and very straightforward electrical wiring for fast and simple maintenance.

Dosing precision: The shut-off valve filling nozzle provides high-precision dosing, (+/- 0.5%) for a very wide range of liquid to high viscosity products.

Clear, precise, user-friendly instruction manual issued with the machine.

The KX603 also provides optional system for oval tubes, sealing weld and rounded corner trim

Production rate: up to 60 tubes/min

- Filling volume: (ml) 1 - 400
- Tube height: (mm) 50 - 230
- Tube diameter: (mm) 13.5 - 50
- Dimensions: (L x w x h mm) 1325 x 1060 x 1860
- Power: (kW) metal head : 1,5
- Power (kW) Hot air: 5
- Plate 12 stations
- Weight (Kg) 650

This data is provided as a guideline and can be modified at any time without prior warning.
