

Wrapping and Labeling

Trim Costs and Beef Up Productivity In Your Backroom Operations

METTLER TOLEDO

A Full Range of Solutions to Positively Impact Your Operations

- Manual, semi-automatic, and full automatic wrapping and labeling systems are available.
- Full line of options and accessories to complement each system.
- METTLER TOLEDO will work with you to create the optimal system for your specific applications.
- Increased productivity, reduced costs, and enhanced merchandising are only some of the benefits.

Enhanced marketing — Print custom graphics and label formats designed using SmartLabel™ software.

High definition 8 dot/mm printhead prints clear text and impressive graphics. Windows® fonts available on UC-PW and Commander.

Design eye-catching labels with cross merchandising using coupons and other marketing messages to increase your sales.

Remote Services — Using your own internet browser with the WrapLink™ interface, you can monitor current settings, temperatures, and view usage rates (daily and total machine packs).

WrapLink™ will automatically detect the model of wrapper. Help desk engineers can talk operators through problems over the phone, avoiding costly “nuisance” calls. The WrapLink interface can be ordered with new wrappers or installed on existing wrappers.

Workhorse® WH-ZS

Workhorse® Automatic Wrapper

Service — METTLER TOLEDO has the industry's largest force of trained technicians and customer service representatives, focused to help improve productivity, reduce costs, and prevent downtime. Services offered include:

- Service Contracts
- Calibration Services
- Installation & Commissioning
- Preventative Maintenance
- Extended Warranties

METTLER TOLEDO also offers monitoring software that notifies

technical support when errors and issues occur with your prepack equipment. In some cases a quick solution can be provided, preventing a service call. For those times when a service call is needed, because the problem has been diagnosed, the service technician can get your operation up faster.
