

Features

- Drawbar design for the most gentle high speed product handling possible
- Uses any heat sealing packaging material
- Less product breakage vs. belt drive machines
- Superior stripping action reducing bag sizes and film waste
- Positive film pulling eliminating belt distortion
- Faster bag size changes vs. belt drive machines
- Servo or AC drive with PLC controls and touch-screen
- Film advanced without belts or vacuum so fewer moving parts reduces maintenance costs and downtime
- Optional power unwinds
- Compatible with scales, augers, and volumetric filling equipment

The Wright division of Hayssen can solve your VFFS packaging problems with our *Pre-Owned Certified & Remanufactured* single tube Vertical Form Fill and Seal (VFFS) packaging machines. If there is something in a bag, we have already packaged it. All of our machines are remanufactured in the USA and are simple to run, simple to repair, and have high throughput. Why let technology for technology's sake complicate your life? We apply technology where it makes sense, not just because we can. Come back to the source, come back to Wright Machinery!

May We Solve A Packaging Problem For You?
