

A BARRY-WEHMLER COMPANY

Model 408 & 704 Labeling Machines Burt® Horizontal Roll Through Labeler

Key Features

- Three types of conveying assure positive control of tin, aluminum, composite, glass, or plastic containers
- Hot melt glue pot controlled by digital thermostat insures correct glue temperature before allowing machine operation
- Maintenance-free hydraulic pump and manifold applies labels accurately and smoothly
- Dual flat belt conveyor for metal cans
- Dual V-belt conveyor for glass and plastic containers
- Single V-belt conveyor for aerosols

Model 408 & 704 Labeling Machines

Burt® Horizontal Roll Through Labeler

PneumaticScaleAngelus Offers the Burt Labeler

PneumaticScaleAngelus now offers the reliable Burt Horizontal Roll-Through Labeler. A standard in the canning industry for more than 100 years, the Burt's rugged durability withstands the rigors of daily production while promoting precise application.

Reliable Labeling for Round Containers

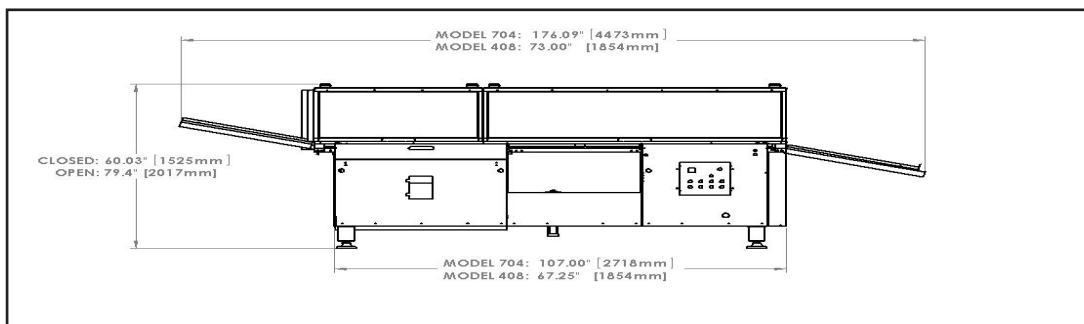

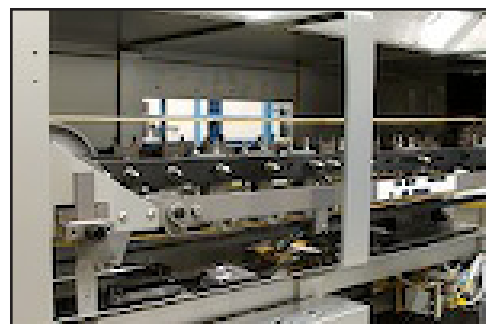

The Burt can apply full-wrap labels to cylindrical containers of virtually any material at speeds up to 800 CPM. A variety of conveying mechanisms and adjustable belt tighteners ensure positive container control. Additionally, the machine can utilize a broad range of labeling materials including papers, foils, plastics and laminates for maximum flexibility.

Precise, Clean Application

The Burt promotes excellent label control by employing a unique hydraulic feed system, which smoothly and accurately positions labels. An optional second feed allows label loading while running. Also, the Burt offers positive label pickup without glue slinging for a neat appearance.

Quick Changeover

Changeovers are quick and easy, performed with a single wrench. Container changeovers can be completed in 15 minutes!
