

Reliable, Affordable, Versatile Cartoning Machinery

50 Series Modular Cartoner Erectors

The 50 Series cartoners have been in use in many industries since 1949. The 50 Series feature versatility, low to modest speeds, compact footprints, affordability, and wide carton size and style ranges. The Series has proven itself durable in even the most extreme working conditions and is known in the industry as a workhorse.

Model 50 Tuck-O-Mat

- Basic carton erector
- Erects and closes one end
- Cartons are air ejected for accumulation
- Speed range adjustable from 5 to 60cpm
- Easily upgradable to the 54L

L Attachment

- Upgrades the M-50 to the M-54L
- Picks up and stands cartons vertically
- Easy to add on in the field
- Manual loading becomes easier

Model 54L Convey-O-Mat

- Semi-automatic cartoner
- Erects and closes one end
- Simplifies manual loading by placing cartons vertically
- Optional power conveyor attaches for an inline load area
- Ideal for integration with bowl feeders, weigh counters (see Special Projects page), pick and place
- Speed range adjustable from 5 to 60cpm
- Add an 80 Series Top Closer for a complete packaging system

Options include hot melt glue, debossing, labeling, barcode scanner, vision systems, inkjet printing, etc.

You can also add a Top Closer for a complete line. Our cartoners are modular. So if you aren't quite ready for a complete cartoning system now, you can gradually increase automation at your own pace.

Reliable, Affordable, Versatile Cartoning Machinery

Model 50 Tuck-O-Mat

The machine is modular, so you can add more automation as your needs grows. You can upgrade from the Model 50 all the way to the 54L/82 Modular Cartoning System, for a more operator-free cartoning line.
