

MAGNUM SERIES

Your only source for in-line bag making systems

MagnumForce

TAKE CONTROL OF HIGH MATERIAL COSTS SAVE UP TO 40% USING POLY TUBE STOCK

Clamco's revolutionary in-line printing and bag making system offers powerful advantages over conventional baggers:

- Optimizes low-cost polyethylene tubing for substantial material cost savings (also runs more costly bags on a roll)
- In-line thermal transfer imprinting at over 300 dpi (Windows® driven)
- Bag lengths can be changed electronically, reducing material inventory and cost
- Today's ideal solution—for a vast array of food, medical, industrial and retail products!

MAGNUM FORCE DELIVERS CLAMCO'S EXCEPTIONAL VALUE

This exclusive bagging system brings you up to 40% savings over conventional material costs, and much more:

- Unique compact design, very affordable price
- Easy integration with most brands of automatic feed systems (auger fillers, scales, counters, conveyers, disk loaders, etc.)
- Clamco's **"Total Systems"** advantage—systematic solutions with innovative quality packaging equipment, application engineering, systems integration, professional distributors and responsive service programs—all backed by our 60 years of experience!

Standard Features:

- Programmable logic controller, self-diagnostics, funnel, adjustable stand, casters, HD foot pedal

*Optional Printer Standard Features (in-line thermal transfer):

- 305 dpi, Windows® driven, speeds up to 8"/sec, 5" ribbon, ribbon save

*Options:

- Accumulating funnels, custom/product load shelf, 220/240V, deflator; dual palm buttons, check weighers, counters, conveyors, larger pass-thru, larger seal width, software, stand-alone printers—many other customized options also available

Specifications:

Model	Magnum Force In-Line Bag Making Systems	
	Vertical Configuration	Horizontal Configuration
Material(s)	polyethylene tubing and/or pre-opened bags (rolls)	polyethylene tubing and/or pre-opened bags (rolls)
Bag width range	3" - 12" tubing (2" - 13" bags)	3" - 12" tubing (2" - 13" bags)
Bag length range	3" - 99+" tubing (3" - 22" bags)	3" - 99+" tubing (3" - 22" bags)
Feed rate	25"/sec	25"/sec
Controller	PLC	PLC
Film gauge	.00135 - .004 thick	.00135 - .004 thick
Speed	up to 40 cpm tubing (up to 70 cpm bags)	up to 40 cpm tubing (up to 70 cpm bags)
Electrical requirements	120V@20 amps	120V@20 amps
Air requirements	80 psi	80 psi
Overall dimensions	30"L x 30"W x (33"- 41" adj. ht)	30"L x 30" W x (33"- 41" adj. ht)
