

Conveyor and adjustable rails

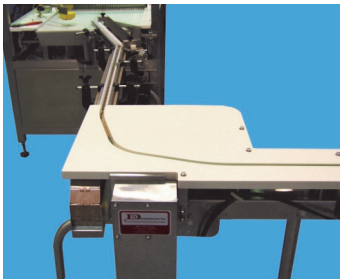

Slide away sanitary bed conveyor

Conveyor side transfer

Bi-directional accumulation tables

Conveyor and 90 degree turn

FP Developments Inc. provides upstream and downstream integration of material handling equipment to our machinery and/or other OEM machinery. We offer a range of material handling products to meet your requirements.

CONVEYORS

- Heavy Duty stainless steel frames
- Adjustable leveling legs or locking wheels
- AC VFD or DC variable speed drive
- Hand knob adjustable guide rails
- Direct drive hollow shaft gearbox which eliminates drive chain & belts
- Turning disks for angle and 90 degree transfers
- Dedicated side transfer blocks
- Integration with turntable, accumulators & other equipment
- Standard widths 3 1/4" or 4 1/2"
- Types: Standard Sanitary, Raised Bed, Aseptic
- Pivoting, Curved, Elevated, Hanging, & Custom Conveyors

TURNTABLES

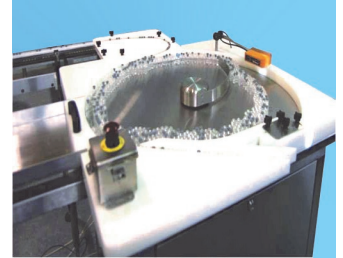

- Handles products from 1/2" - 6" diameter
- Fully supported stainless steel top on UHMW wear plate
- Adjustable leveling for smooth transfer
- Stainless steel sub top provides secure mounting for conveyors & other equipment
- Extended turntable disk allows "zero" deadplate interface with other equipment
- Infeed or accumulating
- Clockwise or counter clockwise rotation
- Standard 48", 36" & 24" diameter
- Custom sizes available
- Non - metallic guides and fences

ACCUMULATION TABLES

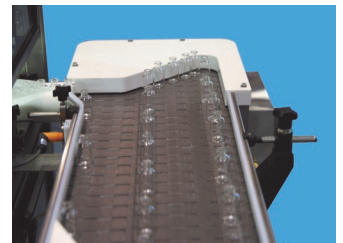

- Variable speed and capacity
- Heavy duty stainless steel frame
- AC VFD or DC variable speed drive
- Adjustable leveling legs or locking rolling casters
- First In First Out (FIFO) accumulation tables
- Bi-directional accumulation tables

Turntable with reverse direction turning disc

Turntables for accumulation, in feed, and out feed

Bi-directional conveyor for accumulation
