Loaders & Accumulators | *Model: IVCL*

Incline -Verticle Cap Loader

This machine is designed to store and automatically load overcaps on to a spinning rod feeder. The loader provides a time buffer between the operator and the overcapper, allowing the operator to perform other tasks on the production line.

Applications

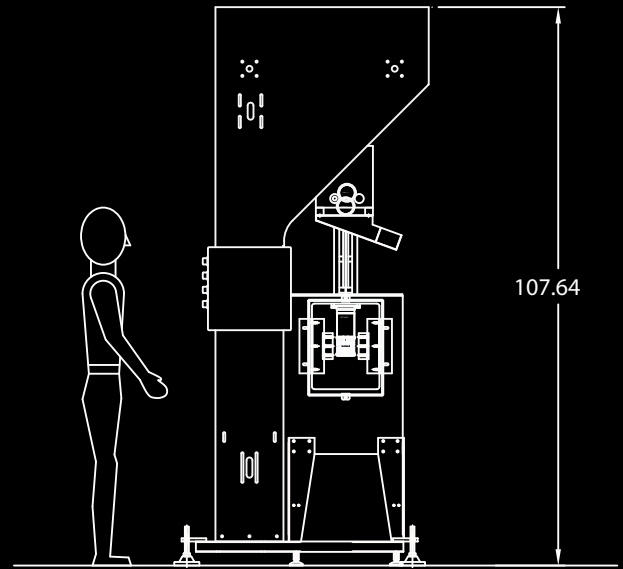

- Intended to store and automatically load stacks of round overcaps onto a spinning rod cap feeder
- Overcaps: injection molded flexible type
- 2" - 8" diameter containers

Experience the DEL Difference

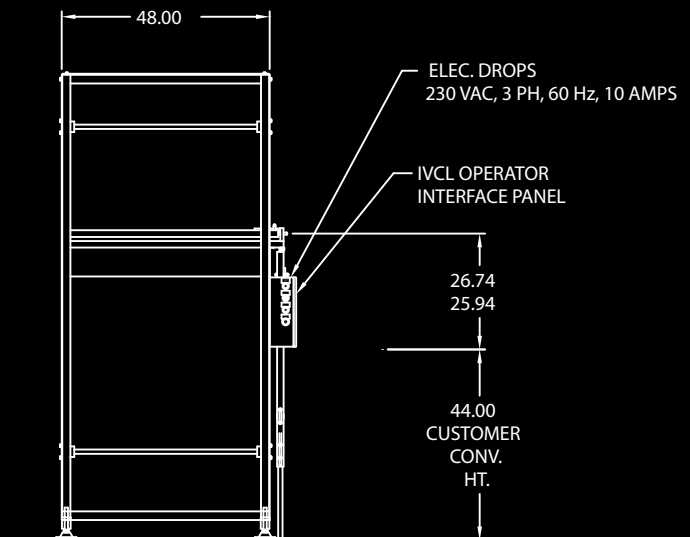

Specifications

- Painted carbon steel construction (non-wash down)
- Storage capacity: 2,000 - 6,000 overcaps (depending on diameter)
- Black oxide chain, pulleys, and sprockets
- Dodge Tigear gear boxes and bearings
- SMC Pneumatics
- Clear Polycarbonate guarding
- Plastic articulating foot pads
- Loader shown with spinning rod overcapper

Available Options

- Interchangeable trays for additional diameter overcaps
- Stainless steel wash-down construction
