

Wraparound Sleever

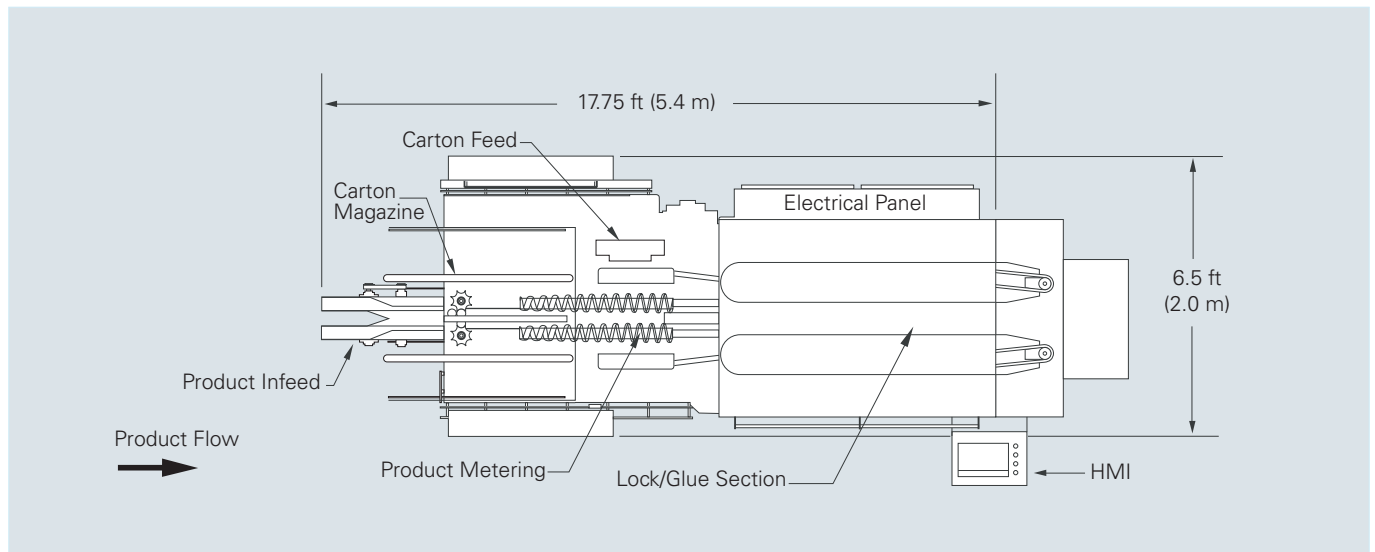

Wraptor®

Jones Wraptor® machines are reliable, high-speed paperboard multipack wrap solutions tailored to meet your requirements. The Jones Wraptor® provides the flexibility to choose the wrap supplier and substrate that best suit your packaging needs. Static locking devices for package closure eliminates the need for glue (glue option is available). The Jones Wraptor® is designed to suit a wide range of applications including a variety of products, packaging styles and configurations. Carton speeds are capable of reaching up to 250 cartons per minute (higher speed options available).

Typical Applications

- Glass Bottle Multi Packs
- Plastic Bottle Multi Packs
- Can Multi Packs
- Cups
- Trays
- Bowls
