

Unique Fixed Centerline Adjustability

DESCRIPTION/OPERATION

The Versacount® is a versatile counter that may be operated either singly or in tandem for increased productivity. Ideal for either short or long production runs, the compact Versacount® accepts a wide range of product sizes and shapes to meet the most demanding user requirements.

In operation, tablets or capsules are fed into the stainless steel hopper. A few simple adjustments are required for product diameter and height to insure smooth product flow. **Product is automatically centered through the detection area due to the unique feature of fixed centerline adjustability.** As product passes through the infrared detection system, an impulse is recorded and tallied on the electronic counter. When the desired count is reached and the container filled, the high speed flap is activated and diverts the continuous flow into a second container. Each time the count is reached, the flap is activated and the filled container replaced by an empty one.

MADE IN USA

BENEFITS/FEATURES

- Unique fixed centerline adjustment for different tablet/capsule sizes
- Straight line product flow for improved control.
- Count range 1 - 10,000.
- Quality stainless steel construction
- Automatic dust removal
- Removable hopper, scroll and head cover for fast thorough cleaning
- Spring loaded deflector prevents jamming due to overloading
- Fully automatic models available
- Operates at speeds up to 2500 tablets/capsules per minute
- Dual arrangement for up to 5000 tablets/capsules per minute
- Versatile: One operator can handle either one or two machines simultaneously, depending upon count
- Ideal for either short or long production runs
- No additional change parts required
- Handles all sizes and shapes of capsules; also coated and uncoated tablets (up to 1 inch diameter)
- Compact design; may be easily moved to accommodate varying production requirements
- Rapid changeover

SPECIFICATIONS

Electricals: 115V A.C., 60 cycle, single phase

Height: 26"

Width: 35"

Depth: 17"

Gross Weight: 130 lbs.

Net Weight: 90 lbs.

Specifications Subject to Change
