

75-SERIES SHRINKSEALERS

50-400 CPM

High Speed Tamper Evident Banding & Shrink sleeve Labeling

Designed for high-speed tamper evident banding at up to 400 containers per minute (cpm), the 75-Series also handles full sleeving applications at 300 cpm dependent upon sleeve dimensions. A range of models is available to meet wide-ranging application requirements.

Using PDC's patented Tetrahedron Wedge technology, the 75-Series is an extremely consistent and dependable system that positively handles sleeving material through the feeding, cutting and application process. This technology is extremely robust, providing highly efficient operation, shift after shift, year after year.

TAMPER EVIDENT BANDING

Band Diameter Range375 to 3.5 inches (10 to 90 mm)
Band Height Range625 to 9 inches (15 to 225 mm)
Line Speed	200 to 400 cpm

SHRINKSLEEVE LABELING

Band Diameter Range375 to 3.5 inches (10 to 90 mm)
Band Height Range625 to 9 inches (15 to 225 mm)
Line Speed – Sleeving	50 to 300 cpm

Line speeds vary depending on sleeve diameter and height.

75-SERIES SHRINKSEALERS

50-400 CPM

Features	Standard	Optional
Construction	Anodized Aluminum Nickel Plated Steel	Stainless Steel Parts Package
Frame	Stainless Steel	Painted Steel
Electrical Requirements	208/240 VAC 3 ph	480 VAC 3 ph
Controls	Touch Screen Operator Interface Allen-Bradley PLC	Customer Preferred PLC

Call Us Today And See What PDC Can Do For You!

Count on PDC for consistent performance, optimum efficiency and maximum line uptime.
