

LEGACY®

LEGACY®

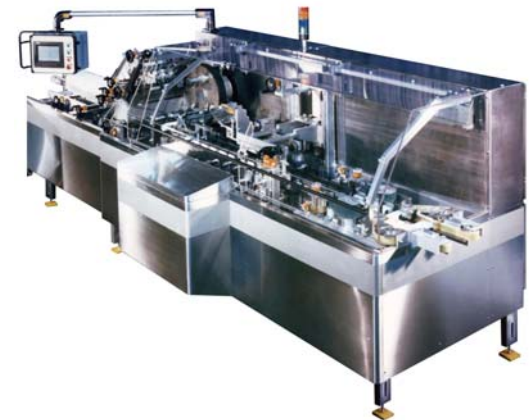

The Legacy® was designed from the ground up to be the most productive, completely equipped, competitively priced, small center cartoner in the industry. From the start, engineers representing several major pharmaceutical and small carton packagers were functioning members of the Legacy® design team. Throughout the process, they provided Jones with meaningful ongoing contributions to the machines' development. The result? A small center cartoner that truly performs to our customers' requirements...not just our own.

Product Features and Benefits

- High speed up to 400 cartons per minute
- Horizontal constant motion
- Glued or tuck closing
- Low-level, high capacity carton magazine
- Compact design, smaller footprint
- 4" & 6" machine centers
- A-B PLC and touchscreen control
- Patented Orbi-Trak® carton feed
- Stainless steel guarding
- Lubrication free maintenance
- Complete debris fall-through design
- 24" maximum operator reach

Options

- Modular glue or tuck closing units
- Leaflet folding and insertion
- Open flap detector/rejector
- Carton magazine extensions
- Inner and outer flap gluing
- Empty carton detector/rejector
- Automatic product transfers

Carton Size Range

Carton Min.	.75" L x .75" W x 2.5" D
Carton Max.	5" L x 3" W x 7.25" D
