

# Model XYT15 VFFS Bagger

Designed to run pillow, gusseted, flat bottom, or 4-corner/quad-seal bags, this vertical form fill seal (vffs) bagger is the ideal solution for packagers looking for flexibility. With quick changeover of forming tubes, film rolls, and sealing jaws, users can switch easily between package styles, bagging speeds, and film structures.

And, Model XYT15 also offers an optional transverse zipper applicator – the only zipper applicator integrated into the film cage to save valuable floor space.

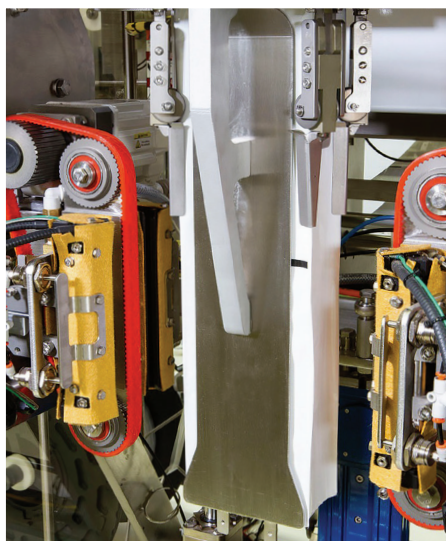

Model XYT15 is ideal for a variety of markets, including cereal, cheese, coffee, produce, IQF products, pasta, poultry, and seafood.
