

Model C8 PORTABLE 8 SPINDLE CAPPER

Speeds From 20 To 400 BPM*

Model A6 PORTABLE 6 SPINDLE CAPPER

Speeds From 20 To 200 BPM*

Model E4 PORTABLE 4 SPINDLE CAPPER

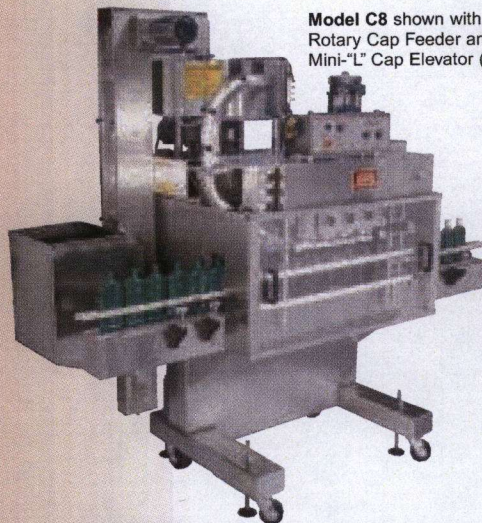

Speeds From 20 To 80 BPM*

FEATURES FOR MODELS C8, A6 AND E4 CAPPERS:

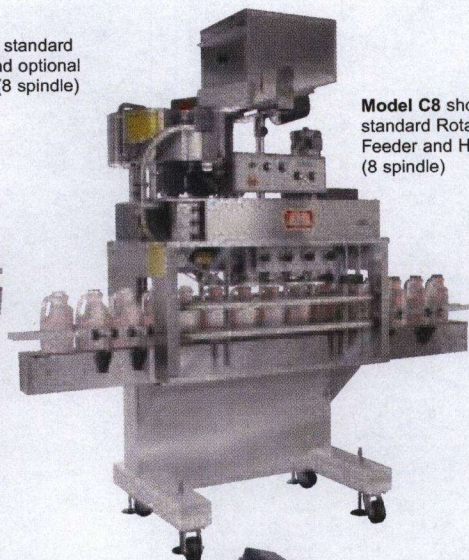

- Fully Automatic
- Available with or without conveyor
- Model E4 handles caps of all materials from 8mm to 70mm including pilfer evident and child resistant cap closures (standard range is 13mm to 70mm)
- Models A6 and C8 handle caps of all materials from 8mm to 120mm including pilfer evident and child resistant cap closures (standard range is 13mm to 70mm)
- Portability allows versatility for automatic capping; easily moved from one production line to another
- Handles metal, glass or plastic containers from low jars and vials up to 2-1/2 gallons
- Easily converted to a combination screwcapper/overcapper similar to the Model G
- Comes with standard rotary cap feeder (optional escalator cap feeder or vibratory cap feeder available on A6 and C8)
- Can be used as a cap and pump tightener
- Comes standard with clutches for screw capping
- Stainless steel guard enclosure with Lexan doors on front and back enclosing spindle and gripper section down to conveyor

* Actual speeds may vary based on bottle and cap type and size
