

Model CE35 Case Erector

**Optional Right Angle
Vertical Magazine**

**Horizontal
Case Magazine**

Robust, Compact Case Erector at Speeds up to 35 CPM.

Pearson's CE35 Case Erector is an easy to use, highly reliable machine capable of erecting and bottom sealing RSC, HSC, CSSC, and RSC w/Integral Divider cases with either tape or hot melt glue closure at speeds up to 35 cases per minute. The small footprint makes it ideal for production areas and an optional low-level, vertical magazine makes it easy to load blanks into the machine for erecting. The CE35 Intermediate Frame models are the answer for larger case ranges.

The CE35's utilize two styles of case magazines, a standard horizontal magazine or an optional vertical magazine. The inline horizontal magazine utilizes powered chain advancement for the knock-down blanks. The vertical magazine picks and feeds knock-down blanks into horizontal rollers for smooth operating reliability and blank transfer.

Once in the case erector, blanks are advanced to the forming section where vacuum cups on major flaps open the blank, eliminating interference of minor flaps. The case is then advanced by flights through flap folders and plows to ensure positive set-up, square corners, and a tight seal. The new design of the CE35's makes them capable of erecting cases with poor scoring or over-gluing of manufacturer's joints.

With a simplified design, the CE35's are equipped with quick-release kip handles and scales for fast, no-tool changeover with optional quick change mandrels. An operator panel view guides the operator through the easy changeover process.

The CE35's offer the following features:

- **Allen-Bradley® PLC**
- **Allen-Bradley® Variable Frequency Drive**
- **Allen-Bradley® PanelView Operator Interface**
- **PackML compliant standard**
- **Nordson® Adhesive Melter**
- **Dekka® Pressure Sensitive Tape Head**
- **Venturi vacuum generators**
- **Electrically interlocked safety guard package**
- **Energy Saving Mode**
- **1/6 Speed Jog-Shuttle Control**
- **Quick 3 minute changeover**
- **UL® Listed Control Panel**
- **Stainless steel construction optional**

Like all Pearson products, the CE35 is backed by Pearson's experienced factory professionals as well as one of the largest teams of PMMI certified regional service technicians in the industry, available 24-hours a day, 7-days a week - worldwide.

UTILITY REQUIREMENTS CE35

CE35-G

Electrical:

230/460V, 3-phase,
60 Hz Std., 9.58 kVA

Pneumatic:

1.341 SCF/Cycle @ 80 PSI
(0.038 m³ /cycle @ 551.2 KPa)

Shipping Weight:

CE35-G - 3,350 lbs. (1508 kg)
CE35-15G - 5,120 lbs. (2306 kg)

CE35-T

Electrical:

230/460V, 3-phase,
60 Hz Std., 5.19 kVA

Pneumatic:

0.744 SCF/Cycle @ 80 PSI
(0.021 m³ /cycle @ 551.2 KPa)

Shipping Weight:

CE35-T - 3,200 lbs. (1453 kg)
CE35-20T - 5,120 lbs. (2306 kg)

RSC

HSC

CSSC
