

THE WEXFORM TOOL-LESS CASE FORMER

quickly adjusts to your case size. No longer must you wrestle with awkward and time-consuming adjustments. This **user-obvious** and tools free case former quickly adapts to multiple case sizes with a 5 minute, full-size changeover.

The Wexform's long-lasting performance is a result of its wear-resistant, mechanical case erecting technology. Assured case squareness, maintenance-free reliability and unparalleled uptime is now offered at prices unheard of in this machine category.

ULTRA RELIABLE PIN &
DOME TECHNOLOGY

WEXFORM 615T

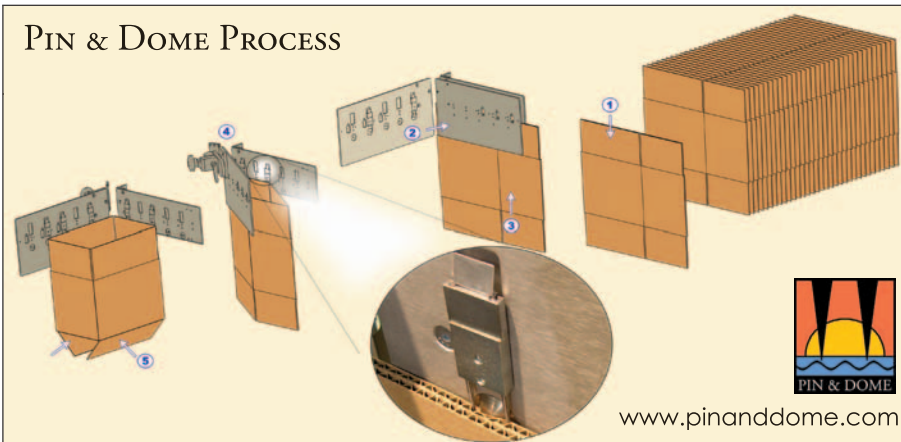

THE WEXFORM 615T DELIVERS....

Ultra Reliability – Continuous repeatable output, regardless of corrugated quality, is achieved by the Pin & Dome mechanical case-opening technology. Vacuum-free for optimum dependability. 

Greater Uptime – Common causes of downtime are minimized by WEXFORM's tool-less changeover and tilt-out tape head. Repeatable and user-obvious adjustments eliminate tweaking and run-in time, meaning Box 1 is Ready to Run.

Better Performing Cases – Square, structurally sound, and aesthetically appealing cases help reduce damaged returns and improve bottom line. Case quality and squareness is assured as a result of the Pin & Dome mechanical case opening technology, the positive flap folding, and the One Push delivery system.

1) First case separation 2) Jaw closes 3) Case injection 4) Case positively opened to square position by pin action 5) Minor & major flaps folded to close position 6) One push delivery through sealing station

TILT-OUT TAPE HEAD FEATURE

Minimize downtime with the quick, easily accessed bottom tape head, for fast tape changes.

TOOL-LESS SETUP:

Wexform 615T tool-less height adjustment system

Wexform 615T tool-less length adjustment

*SPECIFICATIONS:

CASE SIZE RANGE	LENGTH	WIDTH	HEIGHT
Minimum	10"	6"	6"
