HADDON equipment company

About Aaron

For more than 75 years, Aaron Equipment Company has been recognized as the leading provider of new, used, and reconditioned process equipment—all of it backed by a commitment to quality, dependability, and competitive pricing. We are a company with genuine concern for the welfare of our customers and our employees. Our values include integrity, innovation, creativity and accountability.

We serve a wide range of industries, including:

Pharmaceutical	Cosmetic	Mining	Plastics
Chemical	Adhesive	Packaging	Waste
Food & Beverage	Energy	Paper	Petrochemical

We buy and sell single machines, processing lines and even complete plants and facilities.

What Sets Us Apart?

- Over 15,000 items in stock, with a vast selection of late-model, high-quality equipment
- An experienced team of knowledgeable and accessible equipment specialists
- An easy-to-navigate website with multiple images, complete descriptions and the fastest quoting responses in the industry
- A 40 acre facility with over 400,000 square feet of warehouse space and a full-service reconditioning shop
- Conveniently located in Chicago, Illinois—minutes from O'Hare International Airport—making equipment inspections easy
- Over 75 years of experience buying and selling process equipment world-wide

Rugged Solutions to Your Challenging Mixing Needs!

Aaron Process Equipment leverages decades of experience working with Original Equipment Manufacturers to design and manufacture our own rugged, dependable mixing and blending machinery. We offer many sizes and standard design features to match your unique needs. We can also customize equipment to your exact specifications.

Since its inception, Aaron Process has become a one-stop shop for new mixers, blenders, dryers, and milling equipment. We serve a wide range of industries, including the food, chemical, pharmaceutical, adhesive, and silicone spheres.

Our product line includes:

- Sigma Blade Mixers
- Mixer Extruders
- Food-Grade Stainless Steel Batch Mixers
- Plow Mixers
- FDA-Approved Sanitary Ribbon Blenders
- Planetary Mixers
- Laboratory-Style Mixers

No situation is too complex for Aaron Process.

New Equipment

Engineered Solutions to your Equipment Requirements

No matter what your plant needs, Paul O. Abbe provides the exact equipment to get the job done right. Our engineering professionals work one on one with you to specify process objectives. We understand your needs and we know how to identify the correct equipment for blending, mixing, dispersions, size reductions, and solids drying.

We design standard equipment, but we can also custom-fabricate our inventory to fit your exact needs. Rugged construction, sanitary designs, sophisticated batch controls, ASME construction, state-of-the-art electronics, and systems integration per your requirements—those are the hallmarks of the Paul O. Abbe experience.

Our product line includes:

- Vacuum Dryers and Systems
- Milling Equipment—Production and Laboratory Ball Mills
- Tumble Blenders
- Abbe Fluid Zone (Forberg Style) Mixers and Dryers
- Ribbon Blenders/Mixers
- Double-Arm Sigma Blade Mixers

Equipment Services

Reconditioning

Aaron can breathe new life into almost any process equipment. Some of our capabilities include:

- Complete reconditioning services in our 40,000 square foot shop
- Complete rebuilding of most types of processing equipment
- New drive systems
- Customized PLC control systems

Centrifuge Service and Parts

We offer complete reconditioning, modification, and balancing services. In addition, we are a leading supplier of replacement parts and drive systems.

Asset Management

Our business-to-business online service can redeploy machinery—even entire plants—with the touch of a computer keyboard. Aaron's asset management service enables companies to buy and sell equipment with ease. It also serves as a vital tool for industrial corporate asset recovery teams and procurement groups. Our program affords our customers these advantages:

- Real-time, online transactions
- Comprehensive transfer of plant, equipment, and inventory
- Support from a team of experienced professionals
- Accurate appraisal and valuation services

Financing and Leasing

Eighty percent of U.S. businesses reap the benefits of leasing. Alternative financing options provide a simple and cost-effective way for companies to acquire new and used equipment. Aaron can help you find the financing that works best for you, whether you need a single piece of equipment or an entire manufacturing line.

Valuation and Appraisals

Aaron Equipment Company's experienced, certified, and accredited appraisers provide our clients with reliable asset and inventory valuations. We also provide professional and accurate appraisals for everything from a single piece of equipment to process lines, and even complete plants.

Aaron Equipment is the recognized leader of appraisals for the Chemical, Food, Pharmaceutical, Plastics, Rubber, Packaging, Mining, and Wastewater Treatment industries.

Our global business practices have enabled us to develop an extensive database that is furnished with the most up-to-date information about machinery and equipment values. Our appraisers work closely with you, gaining knowledge about your exact value classification needs and requirements. Once we have completed viewing the assets in the field, we thoroughly evaluate market conditions. Finally, we compile our findings to produce precise, industry-specific appraisals.

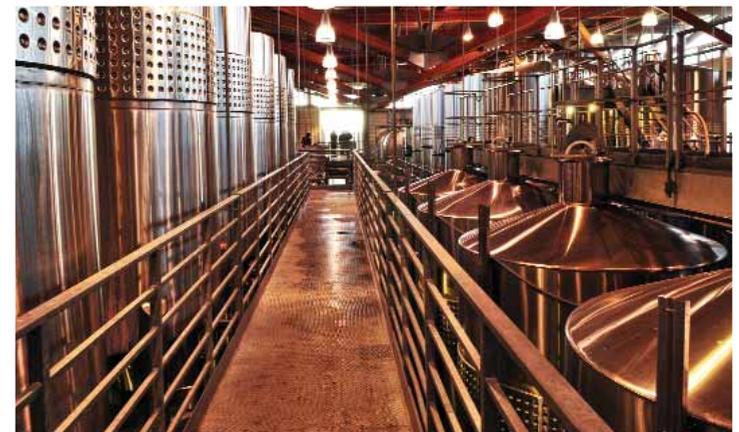

Rest assured that your report will be customized to your individualized needs. Our appraisers' experience with buying and selling equipment enhances their expertise. They thoroughly understand current market conditions, marketplace trends, and the most current industry concepts.

We provide valuation services for:

- Financial Institutions
- Accounting and Legal Firms
- Trustees and Receivers
- Mergers and Acquisitions
- Insurance Companies
- Public Corporations
- Private Industries

Types of valuation we offer:

- Auction Value
- Orderly Liquidation Value
- Fair Market Value
- Fair Market In-Place Value
- New Replacement Cost Value
- Desktop Opinion

Our appraisals reflect the most current market conditions.

Liquidations and Auctions

Our powerful marketing capabilities can maximize the return on investment of your asset sales and can minimize the time in which that ROI occurs. With one of the largest customer databases in the industry, Aaron Equipment Company enjoys an outstanding track record of successful liquidation and auction sales. Furthermore, we leverage our experience with both buyers and sellers across a wide range of industries to create tailored asset disposition programs for every company we work with—large or small.

The type of disposition services Aaron offers include:

- Consignments
- Liquidations
- Public Auctions, Onsite or Online
- Private Treaty Sales

Auctions Onsite/Online

Aaron manages unreserved public auctions that draw robust attendance and participation. We have proven experience in traditional onsite auctions as well as more technological formats. We can manage auctions onsite, at third-party locations, or online. In other words, Aaron will tailor the auction to your company, thereby producing the best overall results.

Aaron provides a comprehensive range of services for both buyer and seller. Those services include:

- Industry-specific marketing
- Targeted multimedia advertising
- Preview and inspection periods
- Sale management with professional auctioneers and support staff
- Online bidding and asset management services
- Computerized invoicing, accounting, and reporting functions
