Basket Centrifuge Parts

Aaron Centrifugal Equipment Company specializes in filtering type centrifuges. We offer complete reconditioning services to assist in maintaining your filtering centrifuge and drive systems to reduce costly loss of production and downtime.

With more than twenty years of experience, we can help you increase production and profits with our state of the art electronic controls, hydraulic drives and AC variable speed drive systems.

Aaron Centrifugal stocks a complete inventory for Delaval, ATM, Mark III, Sharples and Tolhurst centrifuges. As a leading supplier for replacement centrifuge parts, we offer overnight delivery to reduce downtime. Aaron also specializes in custom design upgraded centrifuge parts and parts constructed in exotic materials.

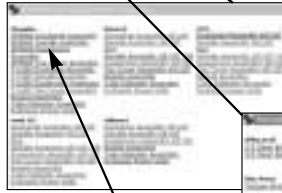

Aaron Centrifugal Equipment Company offers an entire line of basket centrifuge filter cloths, backing screens and protective filter plates. We can provide a broad selection of fabrics in the "no-leak" or "traditional" designs to meet your media requirements.

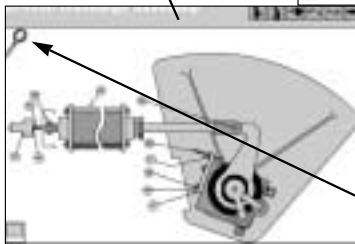

Find the Right Part ... *Right Now!*

Eliminate the *GuessWork* from your replacement part decisions.

www.centrifugeparts.com

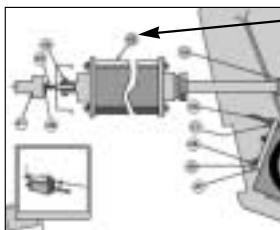

1 Type of Centrifuge
Choose which type of centrifuge you need replacement parts for.

2 Narrow your search
View the drawing as a whole to give you the overview of the parts available.

3 Isolate an area
Click the magnifying glass and move the slide bar to zoom in and out of a particular area.

4 View images
Scroll the cursor over the number to view an actual image of the highlighted part.

5 Part details
Double click the number to find the details of the part (part name and part number). Choose a quantity and add to your shopping cart.

6 View shopping cart
Review the parts listed in your shopping cart. Submit your request for a quote with the click of a button.

The diagram is an exploded view of a mechanical assembly, likely a pump or motor. It shows various components such as bearings, spindles, seals, and housing parts. Numbered callouts (1-50) point to specific parts, which are then listed in the table on the right. The assembly is shown in a cross-sectional view, with some parts shown in their relative positions as they would be assembled.

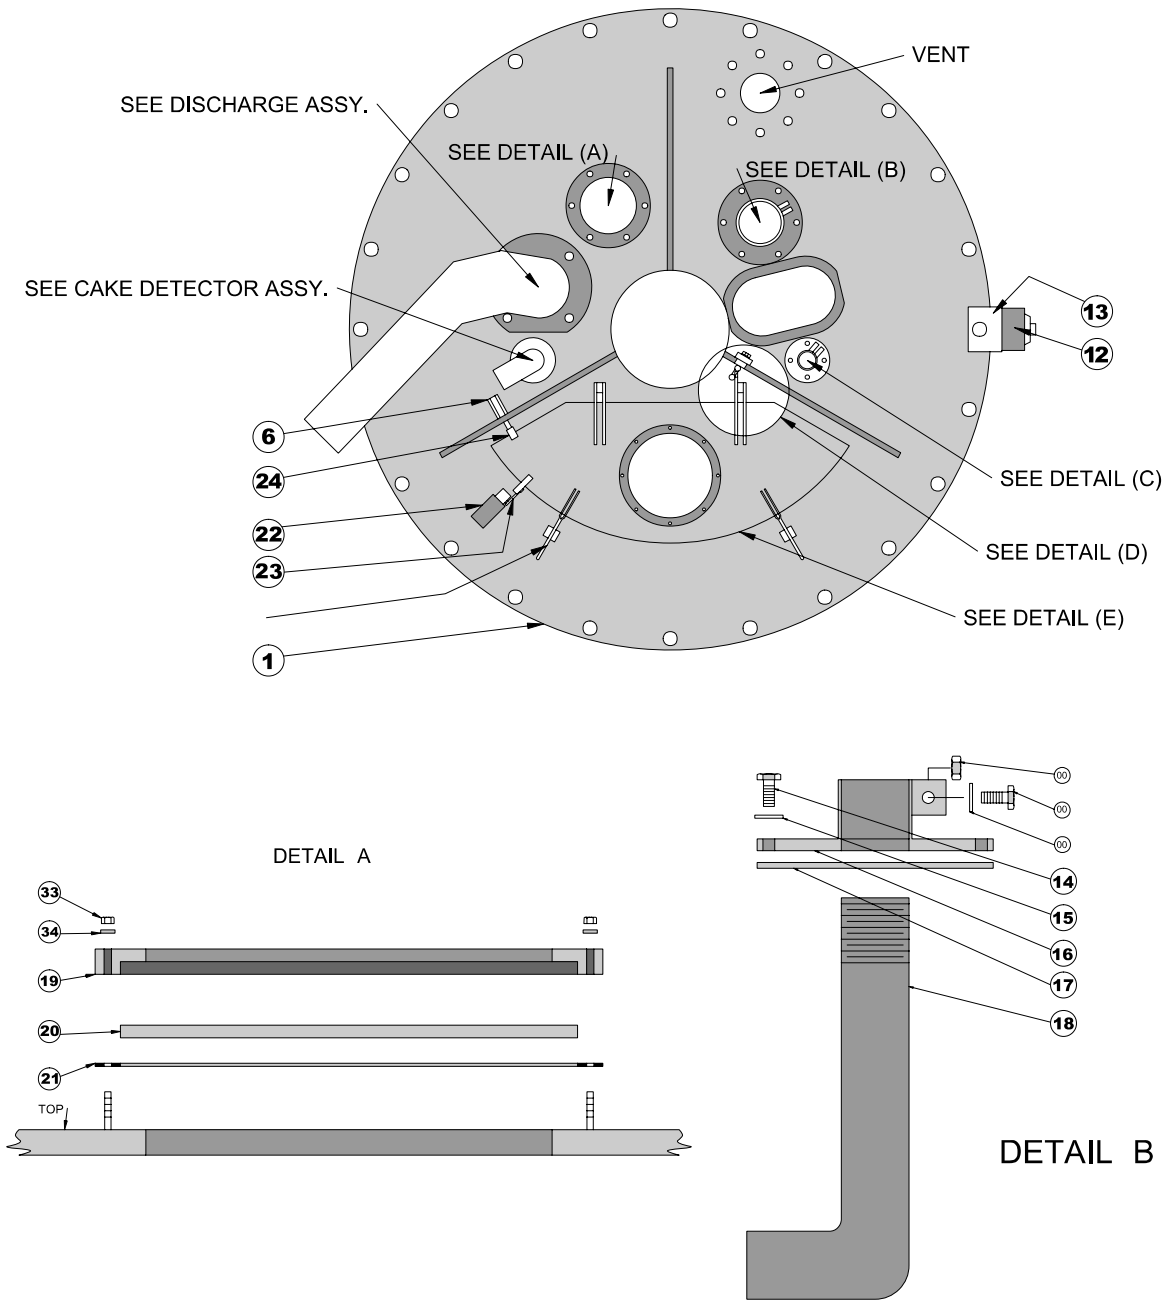

#	Description	Part Number

Hydraulic Power Units

Hydraulic Drive Systems that meet your requirements...

Whispertech Hydraulic Drive System:

- Lowest “db” noise levels available.
- High efficiency.
- Increased performance.
- Reduced heat.

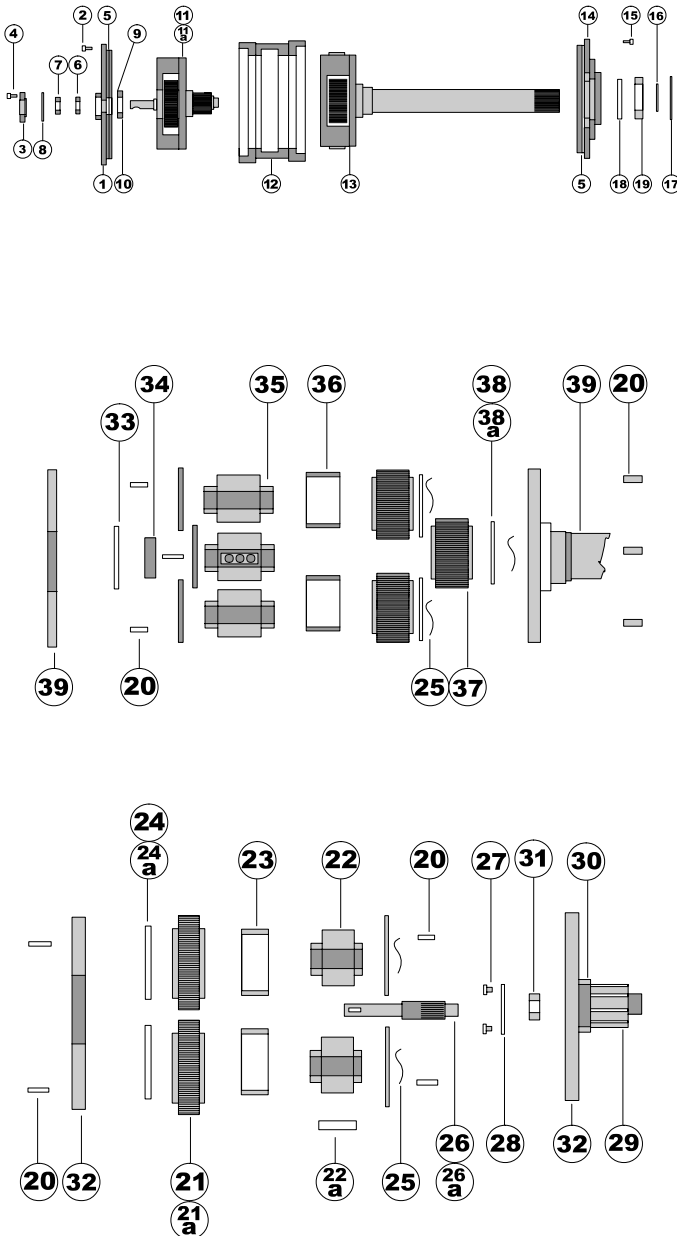

Airtech Hydraulic Drive System:

- Eliminates cooling water requirements.
- Reduced operating costs.
- Reduced installation costs.
- Simple installation.
- Low noise.
